Wittmann & Partner Computer Systems will participate at BINARY 2004, the VIIth edition of the Romanian National Exhibition for Software and Electronic Production Evaluation

Between 22 and 24 September there will take place Binary 2004, a fair that has already become traditional for Romanian software companies. The event will be organized at Romexpo Bucharest, gathering about 90 software companies. Wittmann & Partner will particularly promote its Knowledge Management Solution – ConnAct and the Workflow Management Solution – MPA.

About ConnAct – the Knowledge Management Solution

ConnAct is a solution for document, projects and knowledge management, facilitating direct access (on access levels) to all the important information inside an organization, archived and updated. It is available on Domino/Lotus platform or Microsoft Exchange.

About MPA – the Workflow Management Solution

Modular **P**lant **A**rchitecture is a project built on Java platform, related to aspects of enterprise production workflow.

The advantages which may be obtained as a consequence of implementing modular plant architecture (MPA) solutions are related to a series of factors which contribute to the efficiency of the production process: work time reduction, a large quantity of resources, structures and processing modules; improvement of planned results; internalization of production resources; improvement of selling opportunities and costs.

About Wittmann & Partner

Our company was set up from a joint venture between AIRG Sibiu and Wittmann EDV-Systeme GmbH on 1st *September 2000* and the name changed in "Wittmann & Partner Computer Systems" (WPCS). With this alliance Wittmann & Partner gained two major advantages. First is the new know-how that we received from German side and second is that we are able to increase the quality of services to the western standards.

Wittmann & Partner is a provider of global software development, implementation and maintenance, outsourcing for clients all over the world. Our focus is on developing and implementing Internet, Intranets and client-server applications for Windows and Linux/Unix platforms. The actual staff is able to provide expertise in a large range of technologies and programming languages. Companies from Germany, UK, Italy, France and Romania have chosen us as their trusted partner for software development.

The headquarter is located in Sibiu, Transylvania, in the center of Romania.
